Internet Technology Group Work Assessment

Student group:	Rahel Häusler; Michèle Fille; Jervin Ureath
Project:	eLibraryReinach
Examiners:	Charuta Pande & Devid Montecchiari

Criteria	Research	weight in %	Points (1-100)	Weighted Points	Comments
Scenario and User Experience (UX)	Project context, domain and scenario is defined appropriately. Key use cases are defined, realistic and reflect the generic user stories. Scenario is innovative and user experience is addressed.	10	80	8.0	Well fitting scenario with realistic user stories.
Requirements Analysis and Technology	Relevant aspects named and appropriately weighted. Adequate technology selection for database, frontend- and backend.	10	90	9.0	Excellent analysis
Completeness, Design and Architecture	Functions implemented according to task. Adequate design (inclusion of OOP, design and architectural patterns, API design principles, DRY and CRUD paradigm). Constraints reflected.	15	90	13.5	Very good use of the patterns and API design principles. Excellent use of swagger for API doc.
Creativity and Web-Design	Effort invested in the project, design of the user interface overall creativity impression.	15	80	12.0	Exemplary commitment into making the project look good. Good views & design given the scope.
Artefacts and Implementation	Artefacts are of good quality. Artefacts are available and self-explanatory. Cloud-based instantiation is running and available. Instantiation, solution and results are reproducible.	20	85	17.0	Overall very good.
Digital Data	Appropriate data model, structured data and/or semantics.	10	85	8.5	Very good structure for the use case and scope of project
Project Management and Documentation	Time planning and cooperation. Communication and information. Logical structure and clarity of documentation. Graphical appearance of documentation.	5	95	4.8	Excellent documentation, including sketching and details about every phase. The mockup screenshot were not visible but still available in the folder.
Presentation/Video	Good quality of presentation video. Clarity and good style of presentation. Students are convincing and competent.	15	90	13.5	Very good video, including all the relevant informations
Total Points		100		86	

Concluding remarks

Grade:	5.8
Final Grade	6.0
